

Were You Aware That

- Over 36 million seniors fall each year resulting in more than 300,000 hospitalizations.
- Falls are the chief cause of death in seniors 65+, with over 32,000 deaths each year.
- More than half of falls take place in the individuals' homes.
- Many chronic medical conditions make individuals helpless and vulnerable in their own homes.

We Provide In-Home

- **Physical Therapy**
- **Occupational Therapy**
